

Shared Harvest

FOODBANK

Annual Report 2015

A letter from our director

We feed people because no one should go hungry.

We feed people because food is plentiful. In this great country, millions of families struggle to put food on the table each night. They are trying their best, but in these times, with stagnant wages and the increasing cost of food, many find themselves standing in food pantry lines. Most of the food we distribute is destined for a landfill – not because it is bad, but because there is no market for it or it is close to expiration or mislabeled. Food is plentiful; it is the distribution of it that is lacking.

We feed people because food is education. Study upon study upon study directly links classroom behavior, attendance and achievement to adequate nutrition during critical brain development years. How many children have grown up without a chance at a better life because they did not have adequate food for their brains to develop on par with their better fed peers? Food is as necessary to education as any other school supply to ensure each student has the opportunity to learn.

We feed people because food is medicine. As our population ages, we find ourselves facing a slow moving health crisis, growing bigger by the day. We know that an adequate diet, especially for the elderly, gives their bodies the fuel to fight common illnesses that otherwise could land them in the expensive health care system, from hospitalization to nursing home care. Food is the medicine that can help them remain living independently in their own homes, where they belong.

We feed people because food is hope. When you are constantly worried about where the next meal will come from, you cannot focus on anything else, like improving your education to get a better job. Like helping your children with their homework because you are working double shifts just to pay the rent. Like finding affordable, safe housing. You feel hopeless, inadequate, like you've done something wrong. Food is the hope you need to take that crisis from your shoulders so you can work to make life better for your family.

We feed people because of your help. We could not do what we do without you – you give us your time as volunteers, you give us your treasure as donors, you give us your talent as you help us form our strategies to continue this uphill battle against hunger. You help us make a difference, one meal at a time.

Thank you!

Tina Osso,
Executive Director
